WHAT IS A MOBILE FARMERS MARKET?

It's a farmers market that comes to you! The REC purchases fruits and vegetables from local farms and drives it to central locations for your shopping convenience.

WHAT IS THE HEALTHY INCENTIVES PROGRAM?

The Healthy Incentives Program (HIP) gives SNAP users in Massachusetts money back on their EBT card when they buy local fruits and vegetables at participating farmers' markets.

There's no separate enrollment - any SNAP household in the state is automatically eligible. Monthly HIP benefits are **\$40 for 1-2 person** households, **\$60 for 3-5 people**, and **\$80 for 6 or more**. You need at least \$0.01 on your EBT card to use HIP, and benefits refresh at the start of each month.

Pre-order Fresh Produce Online & Pick-up at any of our 3 Convenient Locations!
